Re: Tier III Certification of Constructed Facility for the Yotta Data Services Private Limited –
Yotta Data Center Park “YDC-D-1”, Floor 7F in Greater Noida, India

Dear Sunil Gupta,

Uptime Institute Professional Services is pleased to announce the Tier Certification of Constructed Facility for the Yotta Data Services Private Limited – Yotta Data Center Park “YDC-D-1”, Floor 7F as fulfilling Tier III Concurrently Maintainable criteria. The Tier Certification is based on the design, facility demonstrations, and the on-site verification of the constructed facility that was completed on 23 December 2022 and documentation subsequently submitted through 10 March 2023.

This Certification recognizes the Yotta Data Services Private Limited – Yotta Data Center Park “YDC-D-1”, Floor 7F as supporting any planned work on the site infrastructure without disrupting computer room power and cooling capacity. This Tier III Certification is based on a total IT load of 2,400 kilowatts (kW). This includes 2,360 kW in Data Hall – 7F, 20 kW in Meet-Me Room (MMR) A-7F, and 20 kW in MMR B-7F. The Certification is further limited by, but does not include 158 kW in Data Hall – 1F and 1 kW each in MMR A-GF and MMR B-GF based on the as-demonstrated conditions of the site.

Tier III Concurrently Maintainable criteria are founded on the capability to complete planned facility maintenance or modifications on a scheduled basis; equipment failures or distribution path faults may lead to unplanned outages. Certain operations-related errors (such as procedural errors during reconfiguration of redundant systems, components, or site infrastructure equipment) may still impact the critical load.

This Tier Certification is valid until the facility is modified, including any changes to the capacity components or distribution paths depicted in the design identified above, and submitted for review. This Certification is subject to the limitations set forth in Schedule I hereto and incorporated herein.

This Tier III Certification of Constructed Facility represents Yotta Data Services Private Limited’s continued investment and commitment to site uptime availability.

Congratulations on this significant achievement.

Sincerely,
